Fonts

SLTF Rigale

REGULAR

Headlines & Titles

SLTF Rigale is a bold, funky, and irresistibly playful sans serif typeface designed to inject life into your creative projects. With its curvy forms, wide stance, and distinctive ink traps, Rigale is full of personality and adapts to every setting with charm and impact. This typeface walks the line between retro flair and contemporary confidence.

This font is available through Creative Market.

Grenadine MVB

BOLD

Secondary & Subheads

Reminiscent of the hand-lettering found in mid-century children's book, MVB Grenadine is a quirky sans, broken free of its geometric roots. Letterforms bounce along the baseline in a jolly dance, yet remain clear and legible, whatever the reader's age. MVB Grenadine is available in a broad range of six weights, each with italics.

This font is available through Adobe Fonts.

Proxima Nova

Body, Heads, Subheads

Proxima Nova is the body copy workhorse for VBS. Available through Adobe Typekit, it comes in dozens of weights, offers multi-lingual support, and allows PDF embedding in the desktop license.
